

The fully subsidised intellectual  
property service for European  
PROs and universities

# BOOSTER

**> 100**

services requested  
from

**13** member states in  
the first round

## INITIAL IP AUDIT

A systematic review of intangible assets, giving you an overview of your current IP position and recommended actions to improve.

## IP EVALUATION OR DUE DILIGENCE

An audit with technological, legal and market dimensions, to assess the quantity and quality of IP assets owned by (or to be acquired by) a PRO or university.

## PATENT LANDSCAPING

This service comprises a detailed review of the competitive IP relative to the research group's specific area of interest. Ideal for technology projects as well as mature protected technologies that could be exploited more strongly.

## Patents, design and trademark applications

Have an idea that you want to legally protect? This service will first assess whether the idea is novel and then make contact with an attorney firm who can take it forward.

## NEGOTIATING TECHNOLOGY TRANSFER

Ideal for TTOs who do not have a lot of experience in negotiating licensing deals. We can provide advice and support in negotiating technology transfer agreements.
